“ I played bass guitar with Gregg in a rock band during the 70's. We practiced in his basement. We played at St. Sebastian church dances, Belle Vernon, Charleroi and California HS dances, along with YMCA pool parties and clubs. Gregg was a great drummer, which by reading his memorials he continued this standard at his job. Barry Pichard

“ I worked with Gregg in the Engineering Department at Red Valve for 26 years. Gregg was one of the best Mechanical Designers I have ever met. His intelligence and product knowledge were just plain astounding. He was responsible for designing many products that went on to become huge commercial successes. Even more important is that Gregg was an incredibly kind man and was willing to help anyone and share his wisdom. Even with his quiet demeanor, he had a wonderful wit and sense of humor that could make anyone laugh. He has made many friends over the years and he will be sorely missed. Our condolences and thoughts and prayers to Gregg's family.

On behalf of his Red Valve family, Mike Duer.
