“ I taught next door to Lynn for many years. We enjoyed sending jokes back and forth by way of our students. I envied him as a teacher as I occasionally would hear him helping one of his students in the science office and noting his quiet kindness as he worked. I also appreciated his knowledge of how to fix household items. I would ask him how to do a repair and he would patiently sit down and sketch out in detail the way to do it. I held him in my highest respect as a teacher but also as a friend. I have been very saddened to hear of your loss. Our son was a student of Lynn and he also held him in high regard. You have my deepest sympathy.

“ I had Mr. Stablein for biology and AP biology at TJ in the late 90s. He made a difference in my, believed in me when I didn't necessarily believe in myself yet. He had a quiet way of expecting the best in someone. His guidance has lead me to teach Ap level life science now my self for 20 plus years now. I have the deepest respect for him and sympathy for his family now.
