“ When Rich was teaching at the middle school, we at lunch in the back of the science room with several other teachers. He always had a funny story to tell. He was always helpful when we had computer questions. Please accept my sympathy for the death of your husband and father. I cannot imagine what you are going through...

“ Having attended a small school, with graduating classes that rarely go above ninety, you become family with your friends and teachers. Mr. Varga was an amazing person. I had him for one class my senior year and out of all my classes my senior year, that was one that left an impact on me. Not only did he teach the curriculum, but he taught what life was and how he wanted us to succeed and be the best we could be. He had a special bond with each of his students, always finding something in common with one of them. I will always remember the lessons I learned in that class and will always remember not only as a teacher, but a member of a family. I wish to express my deepest sympathies to his family, and will be praying for comfort and compassion in your time of need.
